

For over 50 years, generations of families have counted on us to do what no other company can do quite like Shaklee – make products that are naturally safe AND works as well as brand names. Shaklee products are also competitively priced. Just look at the examples below. These products are concentrated and will last at least 3 months each, which makes their cost (including shipping) very competitive with the brand names.

1. Fresh Laundry Concentrate Powder (Item#00161)

The 5.5 lb. box is \$27.92, which includes shipping and tax and will wash 88 loads. This is a competitive price because Tide costs \$0.25 per load and our powder costs \$0.31 per load. This is only \$0.06 per load more than Tide.

2. Revitalizing Shampoo (Item# 31690)

The 10 oz. bottle of shampoo is \$22.73 which includes shipping and tax. It will last 4 months or more, which means the monthly cost is around \$5.68.

3. Dish Wash Concentrate (Item# 00255)

The 16 oz. bottle cost is \$15.40, which includes shipping and tax. As recommended, using only a few drops it will last about 3 months, which costs only \$5.13 per month.

4. Basic H2 Concentrate (Item# 00015)

The 16 oz. bottle cost \$19.09, which includes shipping and tax. This bottle makes an unbelievable **48 gallons** of household cleaner, which will last many months.
