## **IMPORTANT**

### **Requirement for activating a check**

Every product has a point value (PV). Check your Personal Group Volume (PGV) on your free member's web site. When that number reaches 800 or more this means you have enough volume to receive a check for roughly \$200. To qualify for this check you will need to purchase enough products that equal 100 PV. Your 100 PV purchase is necessary to activate each monthly check you want to receive.

As your group gets larger, you can expect your income to increase.
